

MEMBERSHIP INFORMATION

The London Boroughs' Energy Group exists to support effective working on energy related issues between public sector bodies in London. Its core membership is Energy Managers and others with energy responsibilities in London Boroughs and public bodies around London.

LBEG activities and meetings are developed and coordinated by an elected committee of up to 10 local authority members, supported by a professional secretariat.

The key objectives are to share best practice and provide a platform from which the views of members may be presented to government, quasi government and other organisations

Member Benefits

LBEG members receive the following benefits:

- Quarterly meetings hosted by a member in London. Meetings typically cover
 - Upcoming energy policy changes
 - New energy management technologies
 - Energy market outlook
 - Presentations from technology providers, market experts, Government, the Greater London Authority and other LBEG members
- Access to a network of local professionals with similar job responsibilities
- An independent forum for sharing experiences and knowledge
- Regular updates by email on relevant policy and Government changes
- A forum to advertise jobs or seek advice from professional peers
- A group through which to present a collective view to Government/GLA

Our history

LBEG has existed in some format since the 1980s. Since then, the group has continued to come together to share knowledge and promote best practice on energy management, carbon reduction and sustainability across London and the surrounding areas.

Our membership

The key responsibilities of most LBEG members include energy purchasing, billing and M&T; carbon reduction and investment in energy efficiency; and providing energy services to schools. Many of the members also contribute to planning policy relating to energy and to improving energy efficiency in council and private housing stock.

LBEG does not receive any core funding and relies on annual subscriptions from members to cover basic costs. There is a voluntary annual membership fee of £200.
